Subject: Hazardous Waste Management Facility Permit, Class 1 Modification Notice

Reference: EPA Identification Number: TN8570024044  
Hazardous Waste Permit Number: TNHW-139  
Class 1 Modification Number: 1 (A-1500)

Because you have requested to be kept informed of such matters, the Arnold Engineering and Development Complex (AEDC) is providing the required notice of a Class 1 modification to its existing Part B, Hazardous Waste Management Permit, number TNHW-139.

The permit modification is in accordance with the Tennessee Hazardous Waste Program Rules and contains administrative and informational changes to our permit and its attachments. These changes include an updated hazardous waste storage facility emergency coordinator list.

These administrative and informational changes do not alter our permit conditions or reduce the capacity of AEDC to protect human health and the environment. The Division of Solid Waste Management has reviewed and approved the changes as a Class 1 Permit modification, effective July 22, 2015.

Thank you for your interest in AEDC.

Sincerely,

A handwritten signature in black ink, reading "B. Keith Carnley", is written over a horizontal line.

B. KEITH CARNLEY  
Chief, Installation Management Section  
Civil Engineer Branch
